Remarkable Words on Personal Magnetism From an Eminent Divine.

No subject has excited so much interes or awakened so much discussion among

thinking people of late as that of Per sonal Magnetism. It is worthy of note that clergymen, doctors, college presidents, and men of science everywhere are giving it deep thought. Many of them have openly certified to its wonderful powers. The outspoken words of Rev. Paul Weller, of Gorham, N. Y., in this connection will call forth no little addi-

My recommendation of Personal Magnetism, a subject which every man and woman may study with profit, is made after a thorough investigation and with complete knowledge of its great value. I make this statement deliberately. The study of Personal Magnetism as set forth in the admirable book I have mentioned above, should be next to the study of the Holy Bible.

"Personal Magnetism embodies all the laws governing man's influence over man. It is the power that makes men mould the minds of men. It turns life's failures into successes. It makes you nobler, purer and better, It develops the latent powers of the will and makes one capable of the accomplishment of great deeds. I have received many letters on the subject, and to all writers I have answered: Write to the New York Institute of Science. Rochester, N. SPRING OPENING.

A Brilliant Scene at Kaufmann & Co.'s To-day.

Spring has come! This is the one thought that dominates all others the moment we enter Kauf-mann & Company's store—the thought that sends a thrill of pleasure to touch a responsive chord in every woman's heart, Through the length of the store, banking the centre and sides, graceful palms are placed, and flowers of every variety are banked here and there with many-colored ribbons, velvets, chiffons, and, above all, the bright-hued hats lending their gorgeousness to the scene. Up-stairs the show-rooms have a truly Paris air, and rarely, if ever, has there been seen in the city a more elaborate display of artistic creations. Here stands a Persian hat from Rebon and there a white panne bonnet from Virot, a large empire hat of Tuscan straw with draperies of darity blue tulle, blue and black velvet bows and clusters of pink buds. One of the most striking hals was an Anna Held poke, the brim and crown made of folds of pink chiffon with large loops of black velvet and the search there a draouting tense. Through the length of the store, banking chiffon with large loops of black velvet and here and there a drooping red rose. The Miss Hobbs' hat is quife en evi-dence, and one of the most fetching of the

season's styles.

Everything seems to show a tendency towards something unusual or unique, but a number of turbans and hats which allow the pompadour to assert itself, are shown.

The trimmings and general effect are The trimmings and general effect are gauzy and diaphanous, and are very dainty. The prettiest ones are made on frames which are covered with tulle, net, lace, chilion or braidings of straw, velvet and twists of tulle combined. The tendency to keep the tones of one color both in the making and trimming of the hats is growing and threatens to supersede striking contrasts and varied colorings, though the latter still hold their own. The leading combination of the season seems to be Tuscan and red, and the most beautiful Tuscan shapes, trimmed in many fashlons, are here displayed. fashions, are here displayed.
